

THE EXPERTS
IN CHRISTMAS DECORATION

SUPER
WAY™

SUPERWAY INC. LIMITED

Ningbo Huasheng Lamp Co., Ltd is a factory which is specialized in Christmas Lights designing and manufacturing. It is located in Xiangshan County, a beautiful peninsula city.

The company is established in 2003. It has 80 employees and 3 production lines. The company has always focused on research and development of LED Christmas lights and providing the customers with first-rate products of reasonable price, as well as perfect post-sales services. Currently, the company has major products comprising LED series Christmas lights, low voltage (12-36V), solar energy and battery products, including LED linear lights, icicle lights, net lights, rope lights, etc. All products are CE, ROHS, SAA certified. The company has ISO0001-2008 Quality Management System Certificate, its products quality is guaranteed.

In 2007, EUROLAMP invested in the factory, which upgraded with 300 employees and 10 product lines and developed the product lines and the premises. This helped the factory to get into the European market.

In 2013, Superway Inc. Ltd fully undertook from EUROLAMP and Huasheng the exclusive management, production and sales globally.

BASIC SOFTWARE OPERATION

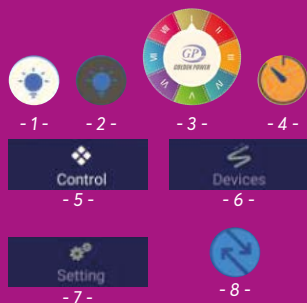

Scan the QR CODE found on the adapter with your mobile and download the app.

Make sure you have connected the LED String to the power supply. Press and hold the button on the adapter until it blinks to activate the adapter's Bluetooth function.

Turn on the Bluetooth function of your mobile before using the APP software

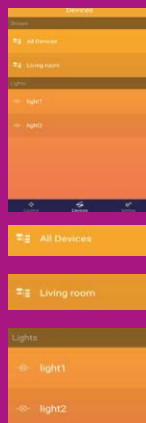

1. The software interface will automatically jump to the following Image 1, click enable, to enable the Bluetooth function. If the Bluetooth function of the mobile phone is not enabled, you can enter the phone settings page and manually enable the Bluetooth function.
2. When this screen appears (Image 2), turn Bluetooth on.
3. The user must setup the password to prevent different devices or different users have been interfere each other. (Image 3)
4. After entering the password, enter the main interface of the APP as shown in Image 4 below, and select setting to enter the setting interface.
5. Add a new light by touching Add New Light, as shown in Image 5 below.
6. After entering the interface, the phone automatically scans for the light, as shown in Image 6
7. Please touch "Save" when finished scanning. Touch "Setting" to go back to the Setting Screen. (Image 7)
8. Please touch "Devices" when back to Setting screen. (Image 9, 10)
9. Please touch the screen and all lights will be displayed. (Image 9, 10)
10. Click Control to enter the main control interface. (Turn the light on or off, dimming, mode selection, setting, timer and other actions) (Image 11)

3. Mode selection (8 modes)
4. Timer
5. Control: Main control interface
6. Devices: Select and control light devices
7. Setting: Software Settings
8. Adjust the light's intensity

DEVICES

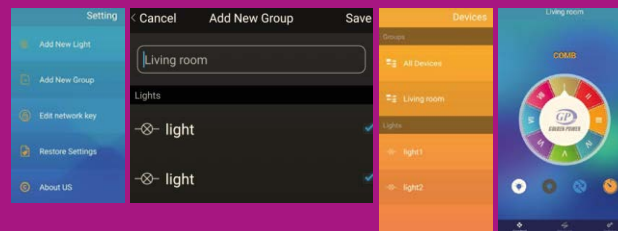

1. Select to control all lights
2. Select to control individual light's status
3. Select to control custom group the user created

SETTING

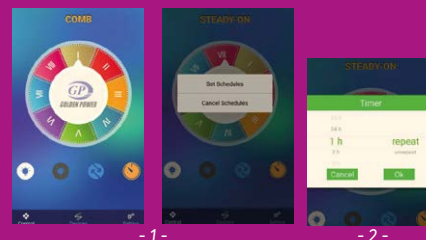

1. Add new light
2. Create new custom group
3. Edit network password
4. Restore settings
5. About us

HOW TO CREATE A GROUP

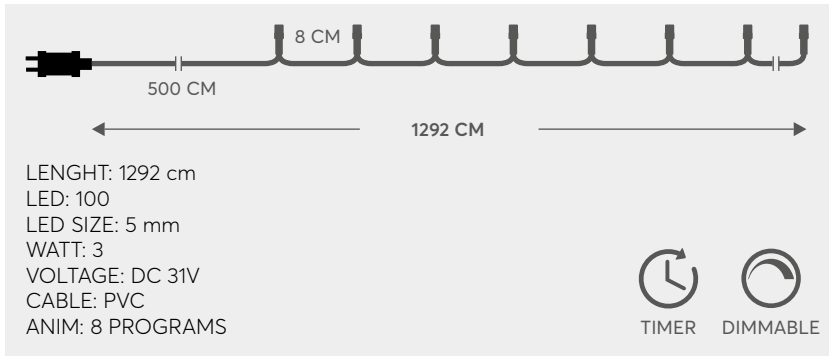

1. Please touch the "Add New Group". The screen shown in left side. Enter the group name and selected the Light. Then click Save
2. Touch Devices to get back to the device screen and touch New Group bottom to control custom lights.

HOW TO SETUP THE TIMER

1. Touch control and get back to the main screen. Then click the timer icon to set the timer
2. Set up the desired time and click OK. At this time, the indicator light will be turned on

LASER PROJECTOR SERIES

WITH PHOTOELECTRIC CELL
IP44 (OUTDOOR USE)

LASER LIGHTS PROJECTOR WITH PHOTOELECTRIC CELL - IP44 (OUTDOOR USE)

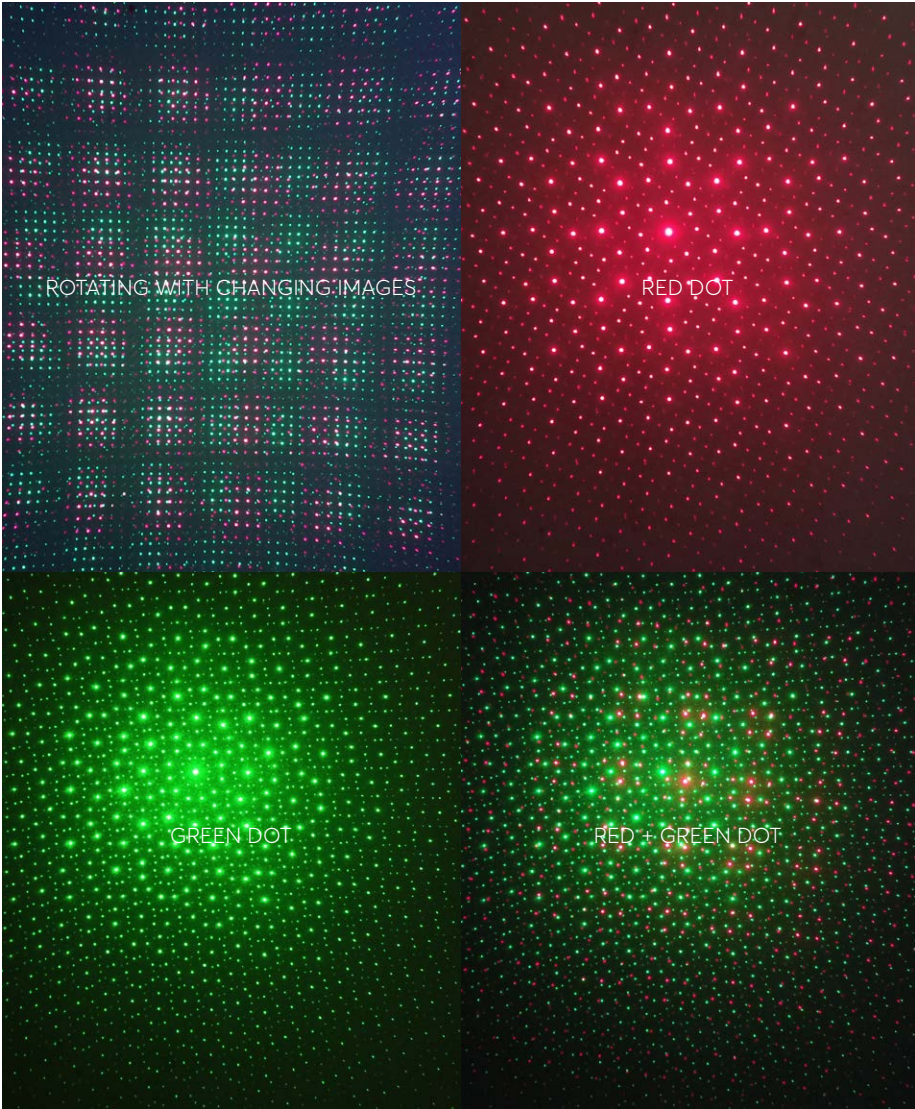

22303

PRODUCT SIZE
BODY OF LIGHT ONLY: 9.1 X9.2X 12.5CM
WITH OUTDOOR STAND: 37CM (HEIGHT)
WITH INDOOR STAND: 18.93CM (HEIGHT)

INPUT: 220V-240V 60 HZ AC
OUTPUT: DC 5V 2A LASER
CLASSIFICATION: CLASS II
MAXIMUM POWER OUTPUT: LESS THAN 1MW
WAVELENGTHS: 532 NM, 650 NM
PROJECTION COVERAGE: OVER 3000 SQ.FT.
OPERATING TEMPERATURE RANGE:
- 31°F TO 104°F (-35°C TO 40°C)

PROJECTION DISTANCE	30- 50M
LASER PROJECTOR LIGHT	RED + GREEN DOT
MULTIFUNCTION	MULTIFUNCTION: 5 CHRISTMAS PATTERNS 1 RED + GREEN DOT
